SUMMARY

Aspiring MERN Stack Developer with expertise in Frontend development using React.js, JavaScript, HTML5, CSS3, Bootstrap, and Tailwind CSS. Experienced in building responsive web applications and integrating RESTful APIs.

EDUCATION

Pranveer Singh Institute of Technology

Dec 2022 – Aug 2024

Master of Computer Application

Chhatrapati Shahu ji Maharaj

Aug 2019 – Jun 2022

Bachelor of Science

TECHNICAL SKILLS

Programming Languages: JavaScript, C, C++

Frontend: HTML5, CSS3, Bootstrap, Tailwind CSS, React.js

Backend: Node.js, Express.js

Database: MongoDB, MySQL

Tools: Git, GitHub, VS Code, Postman, Vercel

INTERNSHIP

Appwars Technologies Pvt. Ltd.

Jan 2026 – Jun 2026

MERN Stack Developer Trainee

Noida, India

- Developed full-stack web applications using MongoDB, Express.js, React.js, and Node.js.
- Built responsive and reusable user interfaces using React.js, HTML5, CSS3, and JavaScript.
- Created and integrated RESTful APIs for seamless communication between frontend and backend services.
- Managed application state using React Hooks and optimized component performance.
- Used MongoDB for database management and Git/GitHub for version control and collaborative development.

PROJECTS

E-Commerce Book Store 📖 | React.js, Node.js, Express.js, MongoDB

- * Developed a full-stack online bookstore using React.js, Node.js, Express.js, and MongoDB.
- * Built responsive user interfaces for product listing, search, filtering, and shopping cart functionality.
- * Integrated REST APIs to fetch and display dynamic product and user data.
- * Created reusable React components to improve code maintainability and scalability.
- * Implemented user authentication and protected routes for secure access.
- * Optimized the application for mobile, tablet, and desktop devices.
- * Used Git and GitHub for version control and project management.

Online Voting System 🗳 | PHP, MySQL, HTML, CSS, JavaScript

- * Developed a secure online voting system to manage digital election processes.
- * Implemented voter registration, login authentication, and candidate management modules.
- * Built vote casting functionality with validation to prevent invalid submissions.
- * Designed and integrated MySQL databases to manage voters, candidates, and election records.
- * Created responsive user interfaces using HTML, CSS, and JavaScript.
- * Implemented form validation and error handling to improve reliability and user experience.
- * Structured the application to ensure secure and efficient data management.

ACHIEVEMENTS

- * Solved coding problems on HackerRank and other coding platforms.
- * Achieved a 5-Star SQL Badge on HackerRank.
- * Built multiple responsive web applications using React.js and MERN Stack.

CERTIFICATIONS

- Frontend Development Certification — Appwars Technologies
- MERN Stack Development Training — Appwars Technologies
- 5-Star SQL Badge — HackerRank
